# National Foundation for Medical Research and Innovation

## **NFMRI's Conference Registrations now open: "Research with Purpose 2024"**

NFMRI's sixth conference, [Research with Purpose 2024](#), will be taking place on the 26th-28th of November 2024 at the [Tangalooma Island Resort](#) in Queensland (75 minute ferry from Brisbane Airport wharf).

**Draft program**

We are pleased to release our draft program. We are still in the process of confirming a handful of speakers and session chairs. We will continue updating the program on our website as additional speakers are confirmed.

The poster for the 2024 Medical Research Innovation Conference features a dark background with a geometric pattern of teal and grey diamonds. At the top left, there's a faint image of laboratory glassware. The title '2024 MEDICAL RESEARCH INNOVATION CONFERENCE' is in large white capital letters. Below it, the location 'Tangalooma Island Resort, Moreton Island, QLD' and the theme '"Research with Purpose 2024"' are listed. On the right, there's a portrait of a man in a suit. Below the title, four smaller portraits of speakers are shown. At the bottom, there are three paragraphs of text describing the conference's goals and focus. To the right of the portraits, a large teal box contains the dates '26' and '28' in large white font, with 'NOVEMBER' in smaller white text between them. The NFMRI logo is in the top right corner.

2024 MEDICAL RESEARCH INNOVATION CONFERENCE

Tangalooma Island Resort, Moreton Island, QLD

"Research with Purpose 2024"

The Conference will explore strategies and solutions to help build, support and grow the biomedical innovation sector in Australia by attracting investments and creating collaborations that help establish new companies – ultimately leading to community health benefits, better health outcomes, increased job opportunities, diversification of the workforce and new sovereign capability.

The unique networking, educational and thought leadership event brings together experts and key decision makers from various relevant sectors to help up-skill delegates and explore how financial and social investments in medical research, together with different strategies and bold actions, can lead to the advancement of innovations.

The program focuses on building a culture, support and funding ecosystem where industry, government, academia, venture capital and philanthropy intersect to support biomedical innovations from beginning to end.

*The program is accurate as of publishing date, but speakers are always subject to change due to unforeseen circumstances.*

## Early bird registrations

Early bird registrations are now open and will close on 11 October 2024. Please [click here](#) for registrations.

For a limited time, grant-making charities who offer competitive grants to external organisations, as well as students from academic institutions, are entitled to receive **two registrations for the price of one full registration** (only available for early bird registrations). Simply register one individual and email the details of the second individual to: [conference@nfmri.org.au](mailto:conference@nfmri.org.au).

## Speaker profiles

Our speaker profiles are available on our website [here](#).

## Travel

The venue is accessed directly via the Moreton Island ferry departing Brisbane's Holt Street Wharf (220 Holt Street, Pinkenba - a short drive from Brisbane Airport). To view the ferry departure times, [please click here](#). **Please note that pre-bookings are required and check-in at Holt Street Wharf is at least 1 hour prior to departure.**

If you are travelling from interstate, it is best to fly directly to Brisbane and catch and uber or taxi to the Holt Street Wharf.

## Accommodation

All bookings are to be made directly with [Tangalooma Island Resort](#). We have secured discounted accommodation, starting at \$239 per night, which [can be booked here](#). Please make sure to select your required return ferry and breakfast if desired. The weblink and discount offering will expire on **11 October 2024**. After this date, all rooms will be released and no discounts will apply.

It's worth noting that there is a minimum 2-night stay required for all accommodation bookings. The resort has also kindly provided discounted rates from the 25-29 November 2024 for those wishing to arrive before the event or leaving the day after the event has concluded.

**We thank Hall & Wilcox, Sanofi and CSL for kindly sponsoring this event.**

---

## Alzheimer's disease grant round now open

As part of our partnership with The Mason Foundation (managed by Equity

Trustees), NFMRI is seeking EOIs for Alzheimer's disease research projects. We strongly encourage women to apply and for the researcher leading the project day-to-day to be listed as the Chief Investigator, including mid-career researchers.

Focus: Alzheimer's disease applications that fall within portfolios 1, 2 & 3 (preference for 2 & 3), open nationally.

EOIs will be accepted until 6pm AEST on Friday, 26 July 2024

[Click here](#) for more information about our grant rounds

[Click here](#) for our online expression of interest form

[Click here](#) to view an example of our complete EOI form for reference only

**Thank you to our generous partners for supporting this grant round:**

## 2023 Annual Report

Our 2023 Annual Report has recently been released. [Please click here](#) to read more about our impact to date.

## Partnering with NFMRI

NFMRI is always happy to consider partnership opportunities with other foundations, trusts, organisations or individuals looking to support innovative medical research in Australia and achieve greater outcomes from their funding. We are able to work within the disease and geographic parameters of our partners to collectively support new programs focussing on translation. This can better enable academic research outcomes, discoveries and innovations to move beyond academia and attract next stage partners including government, industry and venture capital. These partners have the expertise, capability and capacity to take research to the next stage, navigate the complex regulatory and approval systems and enable access to those in the community who are in need sooner.

The infographic is titled 'Partnering for success' with the NFMRI logo. It states 'NFMRI partners with funders of medical research to create impact'. A central graphic shows a staircase with steps labeled 'Discovery', 'Pre-clinical', 'Phase I/II', 'Phase III', 'Regulatory Approval', 'Commercialisation', and 'Patient Access'. To the right, it says 'Supporting Medical Research Advancing Innovation Enabling Collaboration'. Below this, it highlights 'A focus on creating impact' and describes NFMRI's role in partnering with other funders. It also mentions NFMRI's history since 1977 and its DGR1 status. At the bottom, it notes NFMRI's focus on supporting medical research for translation into medicines and vaccines. Two quotes are included: one from Professor Janet Davies about fostering a culture for commercial uptake, and another from A.Prof Bernard Flynn about providing support.

diagnostics, devices, biologics and tools NFMRI has built specific expertise, capability and capacity that has enabled success.

Through our partnering program NFMRI is collaborating with other funders to achieve our missions.

*critical assistance to researchers in bridging the 'valley of death' that separates basic science from viable therapies"*

NFMRI focuses strictly on supporting early stage biomedical innovations (drugs, vaccines, devices, diagnostics, biologicals and tools) advancements to cross the 'valley of death'. Our processes, systems capability and capacity have been purpose built to support a unique strategy and deliver impact by assisting publicly funded research organisations to attract next stage partners along the innovation pathway.

This strategy and support has already prevented a number of research projects from withering-on-the-vine. These projects have attracted next stage partners, secured investment and entered clinical trials across a number of diseases and innovations.

Based upon a framework of good governance, scalable systems and reproducible evidence of success, NFMRI established a targeted partnering program to assist other well-governed funders of research access our capability and capacity. Every dollar put towards our partnerships is distributed to innovative projects that meet the objectives of both NFMRI and the partner.

If your organisation would like to discuss a potential partnership further, please don't hesitate to contact Dr Noel Chambers by emailing [enquiries@nfmri.org.au](mailto:enquiries@nfmri.org.au)
